DETAILED ACTION

Examiner's Amendment

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

This application is in condition for allowance except for the presence of claims 25-48 to Group II non-elected without traverse. Accordingly, claims 25-48 have been cancelled.

The Application has been amended as follows:

Cancel Claims 25-48.

Allowable Subject Matter

Claims 1-24 are allowed.

The following is an examiner's statement of reasons for allowance: The closest art known to the Examiner is cited on the PTO 892 form of the previous Office action. None of the references or combinations thereof disclose or suggest forming a first conductivity type semiconductor well in the first conductivity type well region, the first conductivity well region being located over a portion of a *single* second conductivity type semiconductor well , wherein the second conductivity type semiconductor well is sized

to accomodate at least one transistor outside the first conductivity well portion as required by the present claims. Moreover, Rengarajan does not show forming a second conductivity type semiconductor well in a semiconductor substrate using a single mask, as required by some of the present claims. Therefore, Claims 1-24 are allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
